---

### SUMMARY

Enthusiastic and dedicated Python developer with hands-on experience in building machine learning models, web applications, and automation tools using modern technologies like Django, Flask, and FastAPI. I have a solid foundation in full-stack development and databases, both SQL and NoSQL. Currently working as a Python Developer Intern at Certura (remote) with one year of experience. Known for being a quick learner, problem solver, and an effective communicator. I'm seeking an internship or entry-level opportunity where I can contribute, learn, and grow as a software engineer

---

### WORK EXPERIENCE

#### Python Developer Intern

Certura (Remote) | April 2025 – Present

- Developed Python scripts for data processing and automation tasks.
  - Wrote and maintained clean, efficient, and well-documented code.
  - Collaborated with team members through GitHub for version control.
  - Participated in regular meetings and code reviews to ensure quality and consistency.
- 

### PROJECTS

#### Sentiment Analysis (IMDB Reviews)

- Utilized a dataset of 50,000 movie reviews to perform binary sentiment classification using machine learning techniques.

#### Weather Forecast Classification

- Built a machine learning model to classify weather conditions using attributes such as temperature, pressure, humidity, and wind speed.

#### Student Management System (CLI)

- Command-line tool to manage student records using MySQL and Python. Includes CRUD operations.
- 

### EDUCATION

#### BS in Computer Science

May 2020 – April 2024

- University of Agriculture Faisalabad
- 

### SKILLS

- **Languages & Frameworks:** Python, HTML, CSS, JavaScript, Bootstrap
  - **Frameworks:** Django, Flask, FastAPI
  - **Databases:** MySQL, PostgreSQL, MongoDB
  - **Tools:** Git & GitHub
  - **Machine Learning:** Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, NLTK, Tensor Flow
- 

### CERTIFICATIONS

- AI & Data Science – Codanics (6-Month Program)
- Python Programming – Cursa
